Children with Special Health Care Needs Services Program

MC-1938 DEPARTMENT OF STATE HEALTH SERVICES
P.O. BOX 149347 AUSTIN, TX 78714-9347
1-800-252-8023

- The Children with Special Health Care Needs (CSHCN) Services Program helps with medical, dental, and mental health care, as well as case management, family support services, and payment for medical transportation.
- CSHCN applicants must live in Texas, have a physical condition that is expected to last 12 months, be under the age of 21 (or any age with Cystic Fibrosis), and meet family income limits.

Community Living Assistance and Support Services (CLASS)

AUSTIN, TEXAS 1-877-438-5658

- Community Living Assistance and Support Services (CLASS) provides home and community based services to people who have demonstrated a need for ongoing habilitation services.
- Instead of making these individuals or families move into a home or facility, CLASS is a cost effective alternative in the sense that they come to their clients, instead of making their clients come to them.
- To contact the CLASS interest list call 1-877-438-5658. You are never too young or too old to be on the list so don't delay your call and remember to update your contact information should it change. This is a State wide Interest list.
- This is a very popular service, and could take years to become available, so if you are interested, get on the list as soon as possible.
- CLASS is funded by Title XIX (Medicaid) which allows the Department of Aging and Disability Services

(DADS) to provide services not available under the regular Medicaid program.

- A related condition is a disability, other than mental retardation, that originated before the age of 22 and that effects the ability to function in daily life.

Texas Health and Human Services-Early Childhood Intervention

4900 N. LAMAR BLVD. AUSTIN, TEXAS 78751
800-628-5115

- Early Childhood Intervention (ECI) helps children from birth to 3 years of age with disabilities or delays in the state of Texas.
- ECI offers occupational and speech therapy and related services.
- ECI supports families through education and family services to help their children reach their potential. Families and staff work as a team to develop a plan of service for the child and their family.
- ECI is State and federally funded through the Individuals with Disabilities Education Act (IDEA, P.L. 108-446),
- They provide evaluations and assessments, at no cost to families, to determine eligibility and need for services.
- Families and professionals work as a team to plan appropriate services based on the unique needs of the child and family. ECI asks families who can afford to do so, to share in the cost of services. The amount a family pays for ECI services is determined using a sliding fee scale and is based on family size and income after allowable deductions. No child and family will be turned away because of an inability to pay.
